

Why Run 2 Sweat?

When most people run, there is an expectation that sweating will occur. What if when running, a risk of overheating occurred rather than sweating? This is a reality for some children, including Tyler and Grant Huxman, who both have EEC Syndrome (Ectrodactyly, Ectodermal Dysplasia Clefting Syndrome). EEC is one of over 150 different types of ectodermal dysplasia which affect about 1 in 10,000 births and are inherited disorders that involve defects in the hair, nails, sweat glands, tear ducts and teeth.

The purpose of the **WORLDWIDE Huxman Run 2 Sweat Virtual Run** event is to raise awareness as well as funds for the National Foundation for Ectodermal Dysplasias (NFED). This non-profit foundation provides financial support, advice, guidance and research into ectodermal dysplasia. All of their funding comes from private donations and grants. They receive no federal funding. Your participation in this event and any additional donations will benefit children and adults with Ectodermal Dysplasia in these ways and more:

- **Registration fee for a child to attend Kids Camp at NFED National Family Conference = \$125**
- **Registration fee for an adult to attend NFED National Family Conference = \$175**
- **An air conditioner to cool a child's bedroom or play area = \$250**
- **Medical supplies and nutritional support for a family with skin erosion = \$500**
- **A wig = \$1,250**
- **A full set of dentures = \$2,500**

The **WORLDWIDE Huxman Run 2 Sweat Virtual Run** can occur for you in 2014. The main organization of sponsors and shirts is already taken care of—all you do is determine your race (1 Mile Walk/Run and/or the 5k) location, and times. How big can you make your run?
